

# Quarter Turn Tubing Anchor

The Quarter Turn Reduced OD Tubing Anchor is a mechanical set, retrievable tubing anchor designed with maximum allowable flow area in the annulus.

The anchor can be utilized for treating, testing, injecting, pumping and flowing wells at any depth. The anchor can be set and left in tension or compression depending on the well condition and application. The quarter turn release mechanism is a J-Slot designed to release and set with only 1/4 turn to the right.

Product Specifications:

Casing		Recommended Hole Size (inches)	Tool OD (inches)	Tool ID (inches)
Size (inches)	Weight (lbs/ft)			
4-1/2	9.5 - 13.5	3.920 - 4.090	3.750	1.20
